

InfoNet KFF is fully supported by the Parish Council and is a new community information service, whereby subscribers will link in to an email messaging service to promptly receive information about: specific issues, events or items of general interest; police generated notices relevant to the community; and also be able as an individual or member of a community group to ask for information to be circulated on your behalf.

Emails will be on an as and when basis of relevant information.

InfoNet KFF will NOT be used for commercial purposes, your contact details will be data protected and never shared in accordance with the General Data Protection Regulation. You may unsubscribe at any time.

Neighbourhood Watch and InfoNet KFF are supported by the Parish Council.
